

## ASSIGNMENT - 4

### Board of Directors:-

A board of directors is a group of people who represent the interests of a company's shareholders. It also provides guidance & advice to an organization's CEO & executive team. A board provides general oversight of operations without getting involved in day-to-day operations.

### Milk Sourcing & Animal Husbandry:-

Science which deals with the scientific management of farm animals including their feeding, breeding, weeding & heeding (disease control) is called as animal husbandry.

Animal food mainly comes from milk from cattle such as cow, buffaloes, goat, camel. egg from birds.

Brand Pages:-

Brand Pages let brands tell their story & display their products the way they want to & can often be customized to reflect the brand's look & feel. Within the resources available to the brand & the tools offered by the e-commerce platform, a brand page can be as simple or as complex as needed.

10 years financials:-

Financial statements are a key component of the annual report & provide its users with quantitative data regarding specific aspects of its financial performance in the previous fiscal year. Annual reports typically include financial statements, such as balance sheets, income statements, & cash flow statements.

## Annual General meeting:-

An annual general meeting is a yearly gathering between the shareholders of a company & its board of directors. Generally, this is the only time that the directors & shareholders will meet throughout the year, so it is a chance for the directors to present the company's annual report.

## Notice to Shareholders:-

Shareholder's notice means a notice to shareholders convening a meeting of shareholders, including details of the date, time & the business to be conducted at such meeting.

## Board's Report:-

Board's report is a comprehensive document circumscribing both financial & non-financial information, serving to inform the stakeholders about the overall financial position of the company & its operation & business scope.

## Report on Corporate Governance:-

Corporate reporting means reporting financial & non-financial data to stakeholders. These reports can take many forms, depending on their goal, including audit reporting, financial reporting, corporate governance & responsibility reporting.

## Management Discussion & Analysis:-

Management discussion & analysis is a section within a company's annual report or quarterly filing where executives analyze the company's performance. The section can also include a discussion of compliance, risks, & future plans, such as goals & new projects.

## Business Responsibility Report:-

A Business Responsibility Report contains a standardized format for companies to report the actions undertaken by them towards adoption of responsible business practices.

## Independent auditor's Report:-

An audit opinion (or independent auditor's report) is a certification that accompanied financial statements. Auditors examine information that supports the financial statements to provide a formal auditor's opinion.
